

STORM, FLOODING & HURRICANE CLEAN-UP

HOW TO KEEP YOUR WATER CLEAN & YOUR FAMILY SAFE

THE HIDDEN HEALTH DANGERS OF FLOODING

- Flood water can contaminate public & well water
- Viruses, parasites & bacteria in standing water cause serious illness
- Iron contamination from run-offs can cause permanent damage to plumbing
- Chemical spills can turn water toxic

POST-STORM SOLUTIONS FOR KEEPING YOUR CITY WATER SAFE

REMOVE HARMFUL WATER CONTAMINANTS

Aqua Flo QCRO & QCF Drinking Water

Our **Reverse Osmosis Drinking Water Systems** lower levels of minerals, salts, metals and anions, which can be toxic, that enter water from tidal surges and floodwater.

- Rids water of microbial & chemical pollution
- Purges heavy metals & dangerous radionuclides
- Helps prevent diseases & illness associated with contaminated storm water

REMOVE STORM-RELATED BACTERIA

Our **UV Sterilization System** combines ultraviolet (UV) disinfection with whole-house filtration to remove storm water bacteria during loss of power and traditional cleaning methods.

- Kills bacterial cysts, viruses, protozoa & parasites
- Helps prevent the spread of infectious diseases after the storm

UV Sterilization System

Non-Backwashing Whole House Carbon Filter

AVOID CLOUDY WATER

Our **Activated Carbon Filtration Systems** remove a number of storm-related elements from water, including mud, organic matter, or various sediments.

- Eliminates microorganisms lurking in stormwater
- Helps destroy harmful pathogens

NO POST-STORM EARTHY, MUSTY OR SWAMPY SMELL

Our specialty **KDF Water filters** remove the iron, hydrogen sulfide, metals and other elements in floodwater, the main causes of stinky water

- Eliminate bacteria & fungi for better health
- No Earthy, musty, swampy or organic odor

Home Connect Whole House Carbon Filter

POST-STORM SOLUTIONS FOR TREATING CONTAMINATED WELL WATER

Aqua Flo Platinum QCRO & QCUF Drinking Water Systems

REMOVE HARMFUL WATER CONTAMINANTS

Our **Reverse Osmosis Drinking Water Systems** lower levels of minerals, salts, metals and anions, which can be toxic, that enter well water from tidal surges and floodwater.

- Rids water of microbial & chemical pollution
- Purges heavy metals & dangerous radionuclides
- Helps prevent diseases & illness associated with contaminated storm water

REMOVE STORM-RELATED BACTERIA

Our **UV Sterilization System** combines ultraviolet (UV) disinfection with whole-house filtration to remove storm water bacteria during loss of power and traditional cleaning methods.

- Kills bacterial cysts, viruses, protozoa & parasites
- Helps prevent the spread of infectious diseases after the storm

UV Sterilization System

Non-Backwashing Whole House Carbon Filter

ELIMINATE ODORS INSTANTLY

Our specialty **KDF Water filters** remove the iron, hydrogen sulfide, metals and other elements in floodwater, the main causes of stinky water.

- Eliminate bacteria & fungi for better health
- No post-storm earthy, musty or swampy smell
